## Professional Summary

Results-driven Full-Stack Developer with 8+ years of proven experience in delivering innovative software solutions. Expertise in developing complex web and mobile applications across blockchain, enterprise, and cross-platform domains. Demonstrated ability to lead technical teams and drive project success through strategic problem-solving and cutting-edge technology implementation.

## Technical Skills

### Programming Languages

- JavaScript, TypeScript, Rust, C#, PHP, C++
- Web3, Smart Contracts Development

### Frameworks & Technologies

- Frontend: React.js, React Native, Next.js, Vue.js, Flutter
- Backend: Node.js, .NET Core, NestJS, Laravel
- Blockchain: Solana, Anchor Framework
- DevOps: Docker, Kubernetes, OpenShift

### Tools & Databases

- MongoDB, REST API Integration
- Microservices Architecture
- Version Control: Git

## Professional Experience

**Davinci Codes | Blockchain Developer & Lead Full-Stack Engineer**

*Mar 2024 - Present*

- Led development of a token vesting platform on Solana blockchain.
- Implemented smart contract mechanism reducing token distribution complexity by 40%
- Developed full-stack blockchain application integrating Rust, Node.js, and React with 99% uptime

**Suadeo | Lead Full Stack Engineer**

*Mar 2023 - Feb 2024*

- Architected data manipulation platform for French Ministry, improving data processing efficiency by 35%
- Developed custom enterprise applications using C#, ASP.NET Core, and ReactJS
- Implemented microservices architecture, reducing system deployment time by 50%

## **Saba Services International DMCC | Lead Senior Full Stack Developer**

***Nov 2018 - Mar 2023***

- Managed development of 7+ web and mobile applications using diverse technology stacks
- Created data-fetching bots that improved operational efficiency by 45%
- Integrated complex API solutions, reducing data processing time by 60%

## **Education**

**Bachelor of Arts in English Language and Literature**

**Ain Shams University, Cairo, Egypt *January 2009 - January 2013***

## **Open Source Contributions**

***January 2018 - Present***

- Active contributor to multiple open-source projects
- Developed and maintained 5+ community-driven software solutions
- Improved project documentation and collaboration processes

## **Core Competencies**

- Strategic Problem Solving
- Technical Leadership
- Agile Project Management
- Cross-Functional Team Collaboration
- Technology Innovation
- Performance Optimization
- Client Relationship Management
- Continuous Learning
- Mentorship
- Adaptive Communication

## **Professional Certifications**

- Blockchain Development Certification
- Advanced Full-Stack Development Professional Certificate

## **Languages**

- Arabic (Native)
- English (Fluent)

## **Additional Skills**

- Team Building
- Technical Training
- Strategic Planning
- Rapid Prototyping
- Process Improvement
