## Summary

As a Lead Senior Full Stack Developer , I build web and mobile applications from the ground up, using cutting-edge technologies. I have over 14 years of experience as a programmer, working as a freelancer and for various companies in different industries.

I am passionate about software engineering and always eager to learn new skills and tools. I write well-designed, testable, and efficient code, following the best practices and standards in development. I also collaborate with other developers, designers, and clients, ensuring the delivery of high-quality products that meet the user needs and expectations.
