Summary

I'm (Polyglot/Full-Stack) Developer able to build a Web/Mobile presence from the ground up - from concept, navigation, layout and programming to UX. Skilled at writing well-designed, testable and efficient code using current best practices.

Education

AIN SHAMS UNIVERSITY

Bachelor's degree in English

Language and Literature

Jan, 2009 - Jan, 2013

Technical Skills

JavaScript, Typescript, Nodejs, Prisma, ReactJs, ReactNative, Flutter, ASP.Net, PHP, Laravel, VueJs, Linux, Relation Database, Docker, Kubernetes, OpenShift, Github Workflow Actions, Harbor, ArgoCD, NoSQL, C/C++, Godot, GameDev, Rest-API

Soft Skills

Leadership, Communication, Problem-Solving, Teaching and Mentoring, Project Management, Adaptability, Collaboration, Attention to Detail

Languages

Arabic, English

Work Experience

SABA SERVICES INTERNATIONAL DMCC

Project Manager, Lead Senior Full Stack Developer, IT, and Host Manager.

Nov, 2018 - Present

Saba Services is a leading management consulting firm offering a unique approach to traditional marketing across industries.

- I have successfully conceptualized, implemented, and consistently maintained a variety of in-house projects, demonstrating a comprehensive approach to project management. This broad responsibility encompassed all facets of host management, ensuring a seamless operation of the technical infrastructure.
- The successful development and implementation of various websites were achieved using Laravel and NestJS, demonstrating my proficiency in these robust frameworks. Moreover, my technical prowess extended to mobile application development, where I proficiently utilized both React Native and Flutter to create intuitive and user-friendly applications.
- In addition, I've designed and executed sophisticated data-fetching bots by leveraging my skills in C# and ASP.NET. This has greatly contributed to efficient data collection and analysis, thereby significantly optimizing overall operations.
- Overall, my work reflects a meticulous attention to detail, a deep understanding of multiple programming languages, and a commitment to delivering high-quality, innovative solutions.

Github OpenSource

Senior Full Stack (Web/Mobile) Developer

Feb, 2018 - Present

I have been an active participant in open-source projects, demonstrating my dedication to learning, collaborating, and contributing to the global software community.

- My involvement spanned across various responsibilities, reinforcing my proficiency in diverse areas. I've contributed to a multitude of software development projects, where I demonstrated my strong expertise in project conception, implementation, and iterative improvement, all the while adhering to the best practices of open-source development.
- In addition to contributing code, I have played an instrumental role in community building and management. I have facilitated discussions, addressed issues, and helped shape development strategies to ensure the sustained growth and success of the projects.

- I have also been integral to the documentation process, ensuring that the projects remain accessible and comprehensible for both newcomers and experienced contributors. This has involved creating clear, concise documentation and conducting rigorous maintenance, thereby enhancing the usability and long-term sustainability of the open-source projects.
- Overall, my contribution to MIT's open-source community exemplifies my commitment to enhancing the global software ecosystem, my collaborative spirit, and my technical skills across a multitude of programming languages and development paradigms.

DIGITALEXPERTS.AE / ASK-ALADDIN

Lead Senior Full Stack Web Developer

Jan, 2017 - Jan, 2018

I have had the privilege to take on pivotal roles in two significant projects, namely, DigitalExperts and Ask-Aladdin, reinforcing my expertise in both front-end and back-end development.

- In the DigitalExperts project, I assumed full responsibility for developing both the front-end and back-end components. For the front-end development, I utilized Visual Composer to meticulously design an intuitive user interface (UI) and a compelling user experience (UX). On the back-end, I combined the flexibility of WordPress with the power of PHP, successfully creating a robust and efficient server-side infrastructure tailored to meet the unique client requirements.
- For the Ask-Aladdin project, I was entrusted with the critical task of refining and enhancing both the front-end and back-end elements. I employed Bootstrap and JavaScript to improve the UI/UX, thereby elevating the overall user interaction and engagement. For the back-end, I leveraged Laravel coupled with PHP to construct a streamlined mini customer relationship management (CRM) system. This addition was integral to the client's operations, providing them with a powerful tool to manage customer interactions effectively.
- These projects underscore my versatility as a full-stack developer. My ability to work with a range of tools and languages to deliver customized, comprehensive solutions aligns with diverse client objectives and user expectations, further reinforcing my commitment to excellence in software development.

IDE-ACADEMY (PART-TIME)

Instructor/Senior Full Stack Web Developer

Jan, 2016 - Jan, 2017

During my tenure at IDE-ACADEMY, I was entrusted with the multifaceted role of a Senior Full Stack Instructor and Developer. In addition, I held critical responsibilities as an Information Technology (IT) and Host Manager.

- As a Senior Full Stack Instructor, I played a pivotal role in disseminating knowledge, teaching a diverse range of subjects spanning from front-end to back-end development. My instruction style, rooted in my extensive practical experience, enabled students to gain comprehensive insights into the realities of full stack development.
- My roles at IDE-ACADEMY reflect my multifaceted technical expertise and leadership skills. The broad set of responsibilities underscore my

ability to manage complex systems and impart knowledge effectively, reflecting a strong commitment to technical excellence and education.

CSCEXP

Senior Full Stack Developer, IT, and Host Manager.

Jan, 2016 - Jan, 2017

-

IDIGITALAGENCY (PART-TIME)

Senior Full Stack Developer, Cross Platform Mobile Developer (Hybrid & Native), IT, and Host Manager.

Jan, 2016 - Jan, 2017

-

BRANDINGMISR

Senior Full Stack Developer

Jan, 2015 - Jan, 2016

-

Projects

Trinity Admin-Panel

Jan, 2023 - Present

<https://trinity.abanoubnassem.com/>

Trinity is a powerful Single-Page Application (SPA) administration tool that is designed to streamline common administrative tasks and enhance the productivity of developers. With its feature-rich and beautifully-designed interface, built using C#.

- Trinity was inspired by the popular Laravel packages Nova and FilamentPHP. As a developer, I was always searching for a reliable admin panel that offered advanced features and functionalities, but could not find a solution that met my needs. That's why I created Trinity - to offer a powerful and customizable solution for managing website backends.
- A user-friendly interface that is easy to navigate
- Customizable dashboard that can be tailored to your needs
- Role-based access control for managing user permissions
- Advanced search and filtering options for efficient data management
- Support for multiple languages
- Database agnostics works with most database providers.
- And much more!

ABCODES

Jan, 2020 - Jan, 2021

<https://abcodes.abanoubnassem.com/>

ABCODES serves as a testament to my entrepreneurial spirit and educational commitment, a teaching platform that I conceptualized and constructed independently from the ground up.

- My dedication to detail is evident in the architecture of the platform, reflecting rigorous planning, sophisticated design, and diligent implementation. It integrates user-friendly features and offers a seamless learning experience, demonstrating my understanding of end-user requirements.
- In essence, the successful development and maintenance of ABCODES underscore my multifaceted expertise as a developer and educator,

illustrating my commitment to creating practical, dynamic, and impactful digital learning environments.
